

Technical Data Sheet

Plagron Cocos Brix

Composition (%v/v):

Coconut Peat (buffered and washed quality): 100%

Physical and Chemical Properties:

Acidity, pH (1:1.5) = 6.0 – 7.0

Conductivity, EC (1:1.5) = < 0.5 mS/cm

Dimensions (l*w*h): 10*6*20 (cm) (1.2L) per Cocos Brix

Amount: 6 Cocos Brix per package (7.2L)

Storage Condition & Use:

- Store in a dry area
- Keep packaging tightly closed after use
- Immerse 1 piece of Cocos Brix in a bucket containing 4 liters of water and regularly squeeze the brick. After 20 - 30 minutes you will have about 7 liters of ready to use cocos substrate. Add nutrients each time you water and set the pH to 5.5.
